**Question 34. Read the following passage and answer the questions. Tick your choice.** (5 × 2 = 10)

34. It has been my lifelong dream to play in the middle school softball team. I began playing when I was in the second grade. My older brother taught me to play. He is three years older than I am. He practises with me every afternoon and always attends my games with my parents.

This year, I started sixth grade. The middle school softball team tryouts were announced last month. My brother helped me prepare for the team tryouts daily. The tryouts were held last Saturday morning. Twenty three students participated. The team only has spaces for five sixth grade students. I felt like I had done a good job at the tryouts, but was still nervous on Saturday night and Sunday morning. On Sunday afternoon, my parents took me to the school to see who had made the team. I was so happy when I saw my name on the list. It was exciting to be a part of the team. When we left the school, my parents called my brother and we all celebrated my selection at a restaurant. My brother and my parents were very proud of me. They also warned me about keeping my grades up.
