EDITOR'S NOTE

Dear Students, Parents, and Educators,

“Education is not the filling of a pail, but the lighting of a fire.”

— William Butler Yeats

Welcome back from the break! As we conclude another dynamic and inspiring quarter, we are delighted to share the latest edition of our school newsletter. The past few months have been filled with remarkable achievements, enriching activities, and valuable opportunities for growth—each one contributing to our shared journey of learning and excellence. This quarter has been a celebration of talent, determination, and creativity. From sports events and language programmes to competitions, assemblies, and classroom activities, our students have demonstrated not only their academic strengths but also their confidence, leadership, teamwork, and individuality. It has been a pleasure to see them pursue their passions with enthusiasm and courage.

At DPS-MIS, our vision is to provide a holistic education that goes beyond academics. We strive to nurture curiosity, critical thinking, emotional intelligence, and strong values such as integrity, empathy, and respect. Every initiative is designed to help students become responsible global citizens who face challenges with resilience and contribute positively to society.

This newsletter offers a glimpse into the dedication and hard work of our students and staff. It also reflects the continuous support of our parents and the wider school community. Together, we continue learning, growing, and achieving, because every milestone today lays the foundation for tomorrow's success.

Warm regards,
Ms. Smitha.Muralidaran
Ms.Rathna

"The most meaningful learning often begins where the lesson ends."

Every academic year is a journey of discovery—of knowledge, experiences, relationships and, most importantly, of the self. While the classroom provides the foundation for learning, the experiences beyond it often help children discover their strengths, develop their perspectives and understand their place in a changing world.

At our school, we believe that true education must go beyond academic achievement. It must nurture curiosity, creativity, confidence, empathy and resilience, enabling our students to grow into well-rounded individuals prepared to engage meaningfully with the world around them.

The first term has been a vibrant journey of learning and participation, with our students engaging enthusiastically in academics as well as a range of co-curricular activities and experiences. Each opportunity has encouraged them to explore, collaborate, express themselves and grow with confidence.

Our teachers have been instrumental in making this journey meaningful, going beyond the curriculum to inspire, guide and encourage every learner. Equally valuable is the partnership of our parents, whose trust, encouragement and continued support strengthen the bridge between home and school.

As we step into the new term, may we continue to create opportunities that inspire our students to learn with purpose, participate with enthusiasm and grow with confidence. With the collective efforts of our students, teachers and parents, may the months ahead bring new ideas, meaningful experiences and many milestones to celebrate.

Wishing our entire school community a productive, fulfilling and enriching term ahead.

Warm Regards,
Soma Bhattacharjee
Principal

"The way we speak to our children becomes the voice they carry within themselves."

Every child enters the world with a unique voice, a curious mind and an immense capacity to learn and grow. As educators and parents, we have the privilege—and the responsibility—of being part of that journey. What we say, how we listen and the way we respond to their successes and struggles can leave impressions that remain long after the moment has passed.

In the rush of everyday life, it is easy to focus on results—marks, achievements, competitions and milestones. Yet there is another kind of growth that deserves our attention: the growth that happens quietly. A child learning to believe in themselves, finding the courage to try again after failure, learning to express emotions, or simply knowing that there is someone who will listen without judgement.

Parenting is not about having all the answers or protecting children from every difficulty. It is about providing a secure foundation from which they can explore, make mistakes, learn and gradually find their own way. Sometimes, the most meaningful parenting moments are found in the simplest things—a conversation at the end of a long day, a patient response, an encouraging word or the willingness to simply be present.

As a school, we deeply value the partnership we share with our parents. When home and school work together with understanding and trust, we create a stronger environment in which children can flourish—not only as learners, but as individuals.

As we begin a new term, may we pause to consider not only “what” we want our children to achieve, but also “how we want them to feel as they grow” - heard, valued, encouraged and confident in who they are becoming.

Wishing our students and families a meaningful, joyful, and fulfilling term ahead.

Warm Regards,

Shifa Sheikh

LEADING WITH THE HEART.
LIVING WITH THE SOUL

Dear Students and Parents warm Greetings.

To be Strengthen your personal Identity for Success kindly follow few ways.

- * Commit to positive disciplines in daily life.
- * Seek out likeminded people.
- * Trust your intuition.
- * Grow your self-awareness.
- * Be kind to yourself.
- * Self-Examination and correction

The world won't care about your old defeats. The future is for the one who does and dares, start where you stand, to think only of the best, and to expect the best. The will to win, the desire to succeed, and the urge to reach your full potential shall mould you unique.

Achievement does not come as a windfall. They are the result of the hard work of days, Months and Years. When you consistently focus your energies and your efforts upon what matters most, be successful.

May Almighty God will guide you protect you and help you to walk in kindness, humility and love.

Ms. Rachel Alwyn
Academic Coordinator VII-VIII

ACADEMIC COORDINATOR VII & VIII

DON'T WATCH THE CLOCK;
DO WHAT IT DOES.KEEP GOING.”
— SAM LEVENSON

Dear Students,

Success is not achieved in a single day; it is built through consistent effort, patience, and perseverance. Like the hands of a clock that continue to move forward, regardless of how slowly time passes, we too must keep moving towards our goals.

There will be moments when the journey feels challenging, and you may experience setbacks or disappointment. Remember, these moments do not define your ability to succeed. What matters is your determination to rise, learn from your experiences, and try again.

Never look for shortcuts when pursuing your dreams. Hard work, discipline, and a positive attitude are the foundations of lasting success. Every small step you take today brings you closer to the person you aspire to become.

Believe in yourself, stay focused, and most importantly—keep going!

With best wishes,
Academic Coordinator
Grade V & VI

The first term of the academic year 2026-27 has been a vibrant celebration of learning through a variety of activities and competitions across all grades. From art, craft, and literary events to quizzes, cultural programmes, and sports, students were given opportunities to explore their talents and build confidence. Their enthusiasm, creativity, and sportsmanship made every event truly special.

These experiences have enriched learning beyond the classroom while nurturing teamwork, critical thinking, and holistic development. As the Activity Coordinator for Grades VI to VIII, it has been a rewarding experience to see students actively participate and grow with confidence. Being a part of this journey has been both inspiring and fulfilling, reinforcing the joy of learning beyond textbooks.

With Best Wishes,
Maniksha Balodi
