This year, we continue that tradition with pride, uniting students from across Qatar to experience diplomacy in action. # CHIEF GUEST

---

**MR. YASIR NAINAR**  
Chairman  
DPS Group of Institutions

My primary hope for the delegates at the 8th DPS-DQ MUN is that they had a meaningful platform to express their views and engage in deep deliberations. True satisfaction comes not just from voicing opinions, but from having those ideas actively discussed and evaluated by peers.

In light of global challenges—ranging from energy crises between consumers and suppliers to complex conflicts like the Palestinian crisis—the true success of this conference lies in how well delegates debated these geopolitical issues using solid evidence and research.

While information is easily accessible today, MUN provides a crucial space for students to critically validate claims and form fact-based opinions. Debate and discussion are essential for coexisting in a progressive world, allowing us to make a compelling case for change even when we do not hold immediate power.

# GROUP ACADEMIC ADVISOR

---

**Ms. ASNA NAFEES**

Group Academic Advisor  
DPS Group of Institutions

The 8th edition of DPS Model United Nations (DPS-DQ MUN) celebrates a 26-year legacy of educational excellence, grounding its students in strong ethics, leadership and holistic growth. I have been associated with this school for 16 years and I view this annual conference as a vital platform for transforming dedicated students into thoughtful, proactive global citizens equipped to make a real-world impact.

This year's theme, "Justice Beyond Borders," addresses our deeply interconnected world, where local issues quickly carry global consequences. The conference challenged delegates to look beyond immediate geopolitical disputes and consider how true stability relies on universal human dignity, equity and compassion. Ultimately, the goal was to transform how these young leaders approach problem-solving and cross-cultural understanding.

Moving forward, our commitment to DPS-DQ MUN prioritizes debate quality and deep research over mere delegate numbers. The high level of critical thinking and diplomacy displayed in this edition confirms that our students are well-prepared to tackle complex international challenges. Across the DPS Group, our mission remains focused on empowering youth to drive meaningful, positive change both today and in the future.

# PRINCIPAL

---

MS. SOMA BHATTACHARJEE

Principal  
DPS Modern Indian School

As we prepare for the 8th edition of DPS-DQ MUN under the theme "Justice Beyond Borders," I am reminded of how connected and well-educated today's youth are. In our digital world, students should not be confined by geographical boundaries, as virtual platforms give them the confidence to step out globally. Our vision is to empower them as global citizens who think boldly, embrace challenges and learn continuously from diverse perspectives.

To all our participating delegates, my advice is to stay focused, prepare diligently and bring confidence to this three-day conference. MUN provides a vital space to deliberate on global issues and work toward a better future. Make the most of this time by practicing mutual respect for each other's viewpoints, taking away meaningful lessons that will foster your long-term growth.

Looking ahead, my vision for our future leaders is rooted in fairness, humility and confidence. As our student leadership team guides delegates from various schools, setting a positive example and offering strong support is crucial to the event's success. Through thoughtful discussion and leadership, we aim to inspire every participant to lead with purpose and integrity.

---

# VICE-PRINCIPAL

---

**MS. SHIFA PARVEZ SHAIKH**  
Vice-Principal (KG -X)  
DPS Modern Indian School

As we host the 8th edition of DPS-DQ MUN under the theme "Justice Beyond Borders," we are reminded that fairness and responsibility cannot end at national boundaries. In our interconnected world, global threats and challenges affect us all, making isolation an illusion. Today's youth witness these real-time problems as they unfold across the globe and MUN serves as a critical platform to help them turn this awareness into actionable, real-world problem-solving skills.

Our responsibility as global citizens means we cannot simply turn away from international issues and claim they are not our problem. By engaging in diplomatic debate, delegates learn to look past self-interest and work toward solutions that serve the greater good. This experience prepares our students to lead with a sense of shared responsibility and a commitment to global equity.

My advice to all our delegates is to research and represent your country's position with strength, but never lose empathy in the process. Remember to listen just as attentively as you speak; the most impactful delegates are not those who deliver the fanciest speeches, but those who listen closely to understand the true needs of others. I wish you all a deeply rewarding and successful conference!

# KEYNOTE SPEAKER

---

MS. AMINA HASSAN

Former Head  
THIMUN, Qatar

While researching in Somalia in 2008, I wanted to know if human rights are truly universal or a Western construct. Seeing both parents claiming universal dignity and critics warning of cultural colonialism made me realize justice beyond borders is an ongoing, vital argument every generation must face.

Today, that argument plays out through economic coercion—from trade blockades on Qatar, Australia, and Lithuania to sanctions on International Criminal Court judges. When tech infrastructure becomes a weapon and judges are penalized for doing their jobs, we must ask: Is there genuine universal justice, or just the will of the most powerful?

Universal justice is real, but it only survives when we insist on it. To the delegates at the 8th edition of DPS-DQ MUN Conference; focus on building real connections, listening across committee lines and moving resolutions forward together rather than just chasing awards.

Take justice seriously past the point where it's easy.
